

Dear Manager,

We love shopping at your store but we'd love the experience all the more if we could get our hands on some Carolina Creole. It's both a pantry staple and a gourmet meal. A simple, simmer sauce packaged in a 25 oz jar, Carolina Creole combines simple all natural ingredients like roughly chopped onions, bell peppers and rich, juicy tomatoes all simmered in signature spices with a hint of sweetness. It can be cooked with shrimp, chicken, sausage or vegetables and served over rice or grits so you can easily place it near the seafood counter or on the shelves. One jar serves six and with an average retail price of \$9.99 per bottle that's one downright delicious meal at a great price.

Please call or email Jason Luquire at Carolina Creole for more information on carrying it at your store.

Many thanks,  
A devoted shopper
